Executive Elevator Pitch

30-second version (networking and introductions).

I'm Harry Seballos, a senior federal contract specialist with more than 20 years in acquisition. I spent over a decade with the Department of Veterans Affairs as a Level II warranted Contracting Officer, managing infrastructure contracts up to \$22.5 million.

Today I support VA Network Contracting Office 22, where I train incoming specialists and produce well above peer output. Before that, I served 30 years in the Air Force and retired as a Chief Master Sergeant. I'm looking to bring that depth to a senior acquisition role where complex requirements need steady leadership.

60-second version (interviews and "tell me about yourself").

I'm Harry Seballos, and I've spent more than 20 years in federal acquisition, most of it supporting veterans' healthcare.

At the VA, I ran cradle-to-grave contracting for construction, services, and commodities as a Level II warranted Contracting Officer. That included Electronic Health Record Modernization infrastructure upgrades worth \$22.5 million in Los Angeles and \$9.2 million in Long Beach.

Today I support VA Network Contracting Office 22. Since joining in January, I've executed 75 contract modifications at more than 30% above the peer average, closed out 37 contracts, resolved 8 prior-year obligations, and trained 8 new specialists on the network's contracting systems.

That leadership foundation comes from 30 years in the Air Force, where I retired as a Chief Master Sergeant advising senior commanders and leading organizations of up to 1,400 people.

I'm now completing a Doctor of Strategic Leadership at Liberty University. I'm looking for a senior acquisition role where I can take on complex portfolios and develop the next generation of contracting professionals.
